PROFILE

As a software developer, my objective is to craft innovative and efficient solutions that drive technological advancement. I'm committed to mastering emerging technologies and best practices in software development to deliver robust and user-centric applications. I aim to collaborate with forward-thinking teams to tackle complex challenges and contribute to groundbreaking projects. I would love to explore opportunities for meaningful software development collaborations and mutual growth.

PROJECTS

AssistEyes-A smart assistant for visually impaired people

Jun 2022 — May 2023

AssistEyes is a vision-based assistant for visually impaired individuals in India, using **Machine Learning** and **Deep Learning** for **image recognition, newspaper reading, and GPS tracking**. The hardware includes a Raspberry Pi, webcam, microphone, earphones, and power source. Users interact via voice commands, activating feature modules for audio feedback. This system provides an efficient solution for the visually impaired to engage with their surroundings and stay informed.

Performed Using Python IDE on Raspberry Pi

Assisteyes: A Definitive Web Experience

Jun 2023 — Aug 2023

Assisteyes is your definitive online resource, skillfully designed using **HTML, CSS, and JavaScript.** Our platform is dedicated to enhancing accessibility and providing invaluable support to the visually impaired community in India. It is a medium that gives access to our product named AssistEyes.Dive into a wealth of resources and join our mission, all powered by the prowess of web technology.
